A	B
BRD No.	**BRD No.**
	User Account & Authentication
BRD_01	User lands on the homepage upon entering the valid application URL.
BRD_02	User can create an account using a valid email address.
BRD_03	System must validate email format and enforce password strength rules during sign-up.
BRD_04	User can log in with valid credentials (registered email + correct password).
BRD_05	User receives an error message for incorrect login credentials.
	Homepage Display
BRD_06	Homepage must display the header, menu, search bar, and category list.
BRD_07	Homepage must show Login/Register options for guests.
BRD_08	Homepage must show My Account/Logout for logged-in

Test Scenario ID	Module Name	Test Scenario Name	Priority	Type
TS_01.BRD_01	Homepage	Verify user can land on Homepage using a valid URL	High	Positive
TS_02.BRD_01	Homepage	Verify user cannot land on Homepage using invalid URL	High	Negative
TS_03.BRD_02	Registration	Verify user can create an account using a valid email	High	Positive
TS_04.BRD_02	Registration	Verify system does not allow registration using an already registered email	High	Negative
TS_05.BRD_03	Registration	Verify system validates email format during sign-up	High	Negative
TS_06.BRD_03	Registration	Verify password strength rules during sign-up	High	Negative
TS_07.BRD_04	Login	Verify user can login with valid credentials	High	Positive
TS_08.BRD_04	Login	Verify user cannot login with incorrect credentials	High	Negative
TS_09.BRD_05	Login	Verify error message displays for wrong email/password	Medium	Negative

Requirements | Test Scenario | Test Case (1) | Sheet3 | Defect | impact_matrix

		Pre-requisite	Test Case Name	Test Data	Test Steps	Expected Res
TC_01.TS_01.BRD_01	HomePage	User should have Chrome/Edge; developer provides valid URL	Validate whether user can land on HomePage	https://demowebshop.tricentis.com/	1. Launch the browser. 2. Enter the valid application URL. 3. Verify HomePage visibility.	1. Browser should launch succe 2. Application URL should lau 3. HomePage should be visible
TC_02.TS_02.BRD_01	HomePage	User should have Chrome/Edge; invalid URL available	Validate whether user cannot land on HomePage with wrong URL	https://demowebshop.tricentis.com/	1. Launch the browser. 2. Enter wrong URL. 3. Verify HomePage is not visible.	1. Browser should launch succe 2. Wrong URL should not load 3. HomePage/Login button sho error/404 page displayed.
TC_03.TS_03.BRD_02	Registration	Browser ready; site reachable	Verify user can create an account using a valid email	First Name: Jae; Last Name: V; Email: jae002@gmail.com@test.com; Pwd: 12345678	1. Navigate to site. 2. Click **Register**. 3. Enter valid details. 4. Submit registration.	1. Registration page should ope 2. Form should accept valid det 3. Success message should be s
TC_04.TS_04.BRD_02	Registration	Existing account email is known	Verify system does not allow registration using an already registered email	Email: existing_user@test.com	1. Open **Register** page. 2. Enter existing email and other fields. 3. Submit registration.	1. Form submission should be b 2. Error "The specified email alr be displayed.
TC_05.TS_05.BRD_03	Registration	Registration page open	Verify system validates email format during sign-up	Email: testexample.com (missing @)	1. Open **Register**. 2. Enter invalid email. 3. Submit.	1. Email field should show "Wro validation. 2. Registration should not proc
TC_06.TS_06.BRD_03	Registration	Registration page open	Verify password strength rules during sign-up	Password: abc123 (weak)	1. Enter weak password. 2. Submit registration.	1. Password strength warning 2. Registration should be block
TC_07.TS_07.BRD_04	Login	Valid user exists	Verify user can login with valid credentials	Email: jae002@gmail.com; Pwd: 12345678	1. Click **Login**. 2. Enter valid credentials. 3. Click **Login**.	1. Credentials should be accept 2. User should be redirected to
TC_08.TS_08.BRD_04	Login	Login page open	Verify user cannot login with incorrect credentials	Email: jae002@gmail.com; Pwd: **Wrong123**	1. Enter invalid password. 2. Submit login.	1. System should show "Login i 2. User should remain on Login
TC_09.TS_09.BRD_05	Login	Login page accessible	Verify error message displays for wrong email/password	Email: fake@test.com; Pwd: **Any**	1. Enter wrong email/password. 2. Click **Login**.	1. Error message should be disp
TC_10.TS_10.BRD_05	Login	None	Verify login page prevents login when email field is blank	Email: empty; Pwd: **Test@123**	1. Leave Email blank. 2. Click **Login**.	1. Required field validation sho 2. Login should not proceed
